Global

We have been, or are, involved in the construction of 139 wind farm projects, to the value of 2.3GW, around the world.

“Wind Prospect has constructed over 250MW of wind farm projects for EDF over more than a decade and are currently assisting us with over 250MW of future projects. They continue to maintain a professional approach and excellent attitude to the job with full ownership and responsibility being taken by the Project Managers. We would thoroughly recommend them as a quality partner in all aspects of wind farm development, construction, operations and consultancy.
