

# Advisory and wind resource

Track record 2011 / 2012

- Feasibility studies
- Wind resource
- Turbine procurement
- Due diligence
- Bank's engineer
- Operational audits
- Solar resource
- General consultancy

Services and advice from the people that build their own

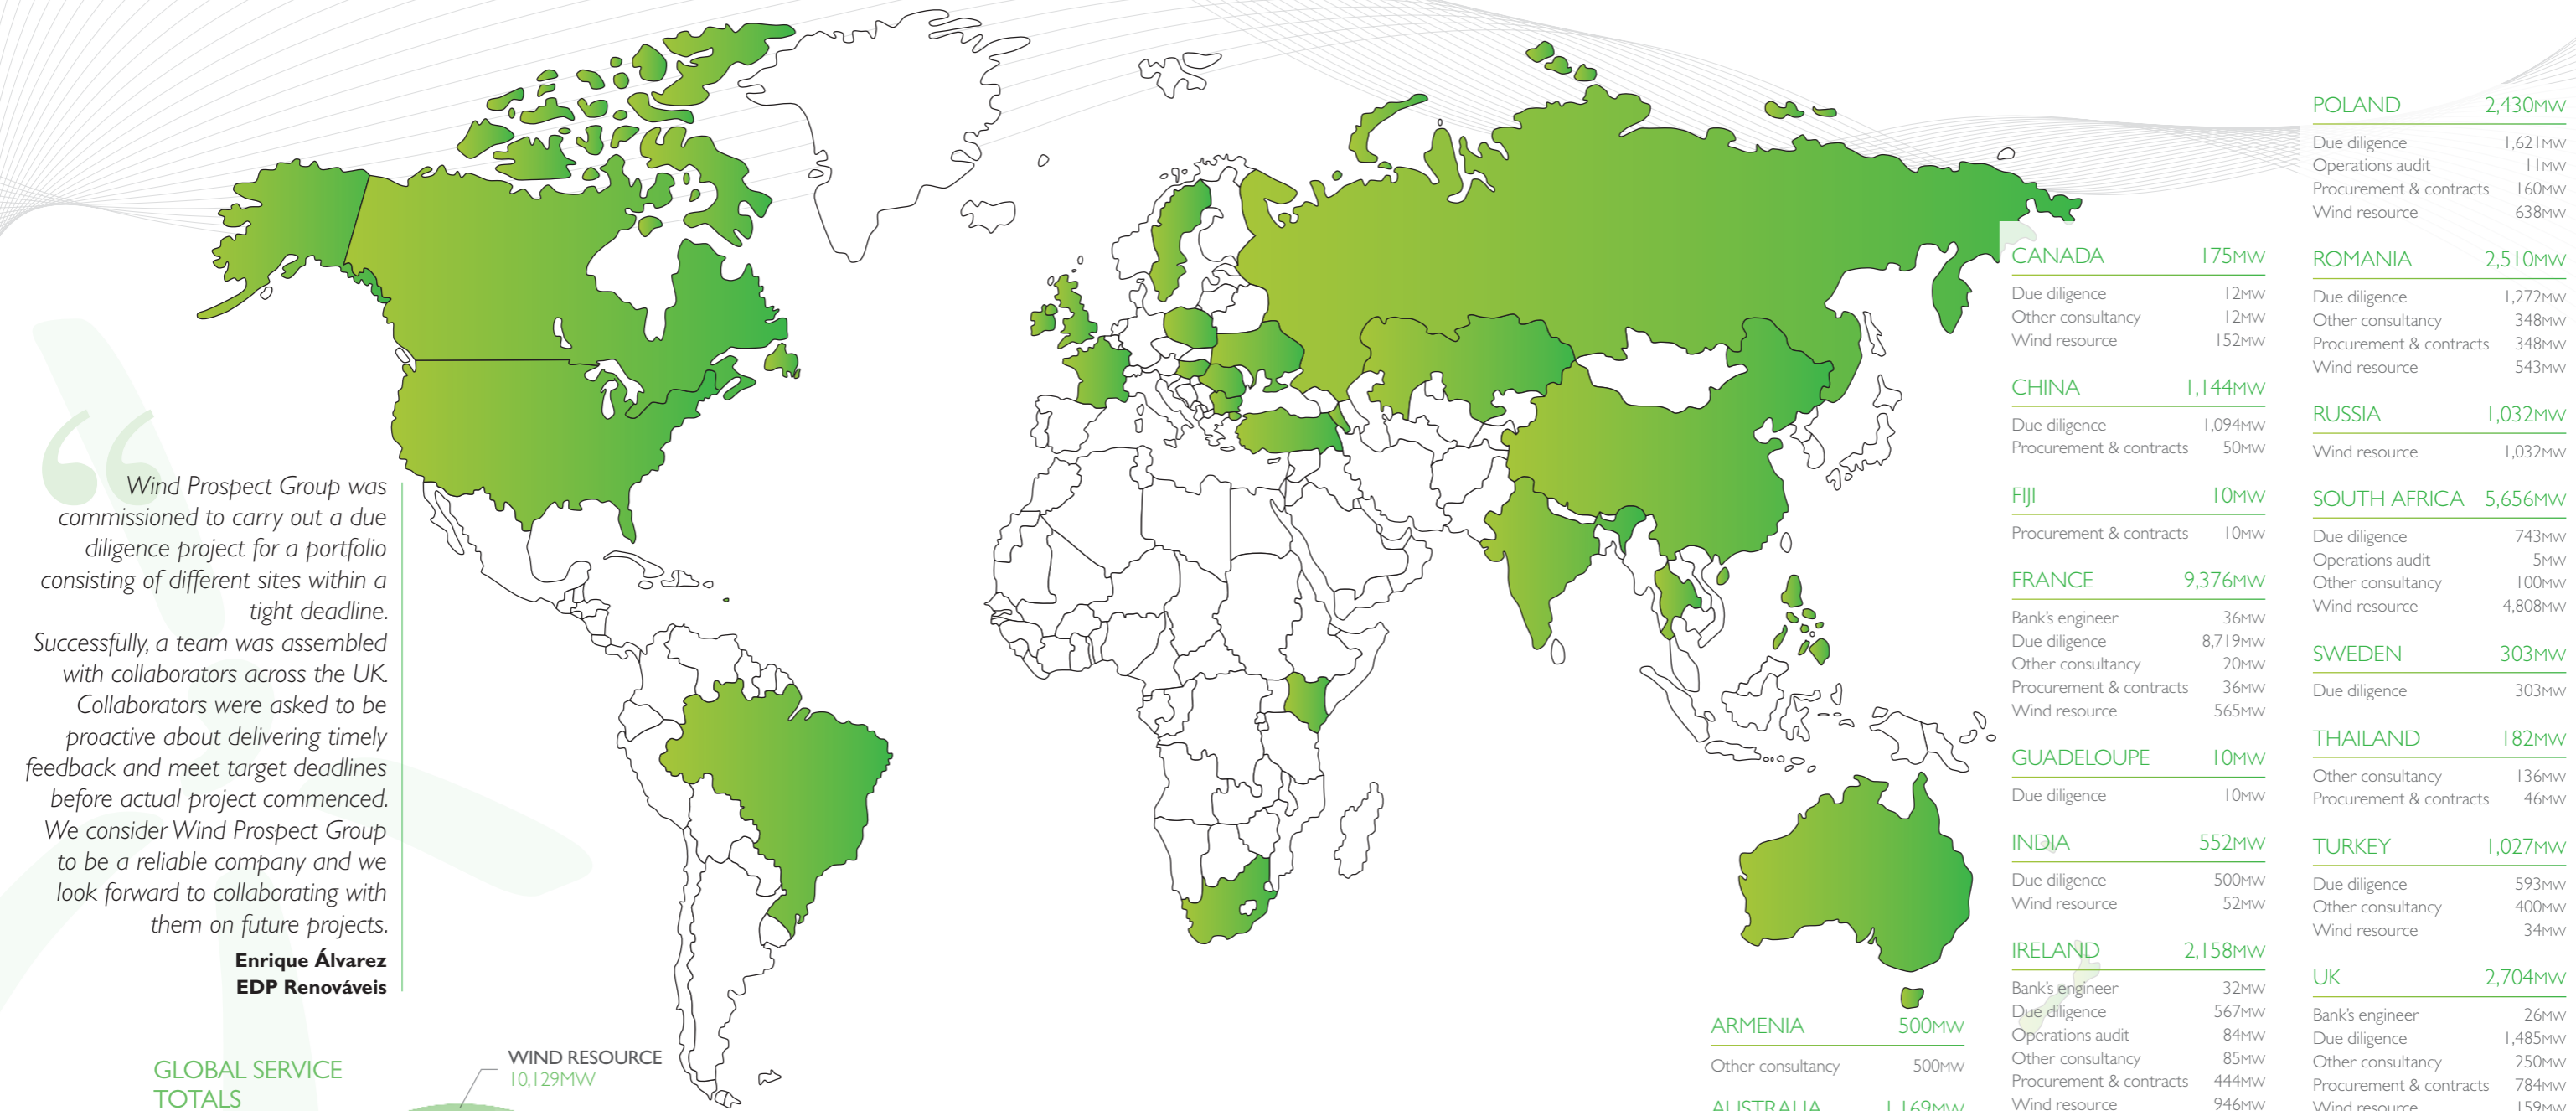

# Advisory track record

Wind Prospect has successfully developed wind farm projects around the world. Our expertise acquired over two decades and distributed across 200 experts is available to aid you in finding, developing, building, operating and buying your own renewable energy projects.

# Advisory track record

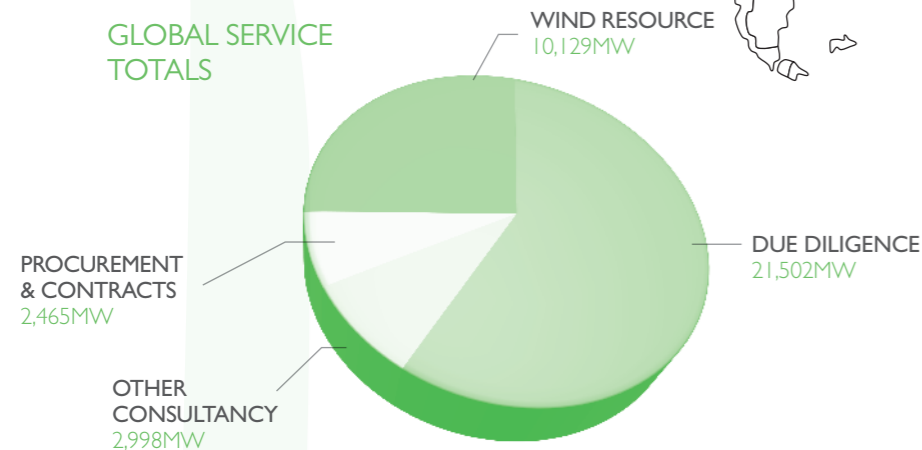

We have advised clients on hundreds of wind farms, in **26** countries around the world

Wind Prospect Group was commissioned to carry out a due diligence project for a portfolio consisting of different sites within a tight deadline. Successfully, a team was assembled with collaborators across the UK. Collaborators were asked to be proactive about delivering timely feedback and meet target deadlines before actual project commenced. We consider Wind Prospect Group to be a reliable company and we look forward to collaborating with them on future projects.
